## Carsystem Multi Light

| Version |         | Revision Date: | Date of last issue: 30.04.2020  |
|---------|---------|----------------|---------------------------------|
| 2.1     | GB / EN | 25.05.2021     | Date of first issue: 15.07.2019 |

#### **SECTION 2: Hazards identification**

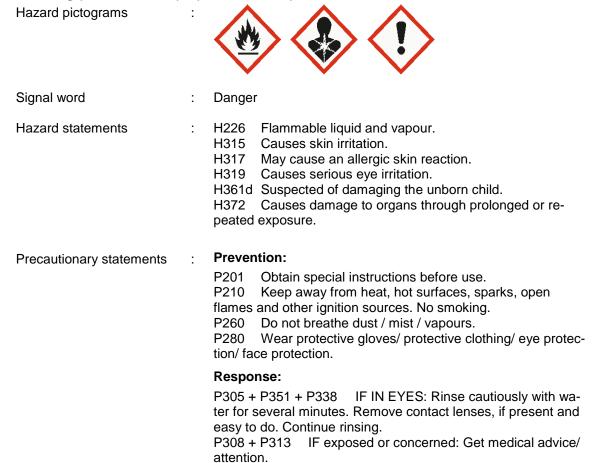

#### 2.1 Classification of the substance or mixture

#### Classification (REGULATION (EC) No 1272/2008)

| Flammable liquids, Category 3                                  | H226: Flammable liquid and vapour.   |
|--|--|
| Skin irritation, Category 2                                    | H315: Causes skin irritation.  |
| Eye irritation, Category 2                                     | H319: Causes serious eye irritation.                                       |
| Skin sensitisation, Category 1                                 | H317: May cause an allergic skin reaction.                                 |
| Reproductive toxicity, Category 2                              | H361d: Suspected of damaging the unborn child.                             |
| Specific target organ toxicity - repeated exposure, Category 1 | H372: Causes damage to organs through pro-<br>longed or repeated exposure. |

#### 2.2 Label elements

#### Labelling (REGULATION (EC) No 1272/2008)

according to Regulation (EC) No. 1907/2006

## Carsystem Multi Light

| Version |         | Revision Date: | Date of last issue: 30.04.2020  |
|---------|---------|----------------|---------------------------------|
| 2.1     | GB / EN | 25.05.2021     | Date of first issue: 15.07.2019 |

#### Storage:

P405 Store locked up.

#### Disposal:

P501 Dispose of contents/ container to an approved facility in accordance with local, regional, national and international regulations.

#### Hazardous components which must be listed on the label:

stvrene maleic anhydride

### **Additional Labelling**

EUH211

Warning! Hazardous respirable droplets may be formed when sprayed. Do not breathe spray or mist.

#### 2.3 Other hazards

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

Ecological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

Toxicological information: The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

#### **SECTION 3: Composition/information on ingredients**

#### 3.2 Mixtures

Chemical nature 5 Mixture contains Resin

#### 14.6 Special precautions for user

The transport classification(s) provided herein are for informational purposes only, and solely based upon the properties of the unpackaged material as it is described within this Safety Data Sheet. Transportation classifications may vary by mode of transportation, package sizes, and variations in regional or country regulations.

#### 14.7 Maritime transport in bulk according to IMO instruments

Not applicable for product as supplied.

#### **SECTION 15: Regulatory information**
