

TECHNICAL DATA SHEET

ADHESIVE & FILM RESIDUE REMOVER

FEATURES:

A new generation of glue remover, great for removing surface contaminants such as masking tape and other adhesive residues, particularly efficient in removing adhesives from car window tint film and color vinyl film, formulated from nondangerous solvents, non-toxic materials. Suitable for removing car window film and color vinyle film, household glass film residue,etc.

DIRECTIONS:

1. Shake well. Spray GLUE OFF at a distance of 20cm away from the surface.
2. Let GLUE OFF react on surface for 1~2 min. Or brush/agitate with sponge pad. (spray some GLUE OFF on the sponge as well)
3. Rinse thoroughly with a power washer or flowing water.

PRECAUTIONS:

- Spray on small area for testing first.
- Keep out of reach of children.
- If it is splashed into eye, please flush eyes with water and seek medical help.
- If swallowed by mistake, induce vomiting at once and get medical help.
- Store in a cool, dry area and away from sunlight.
