About Mirka

Mirka Ltd is a family-owned Finnish company and a world leader in abrasives technology innovation. We offer a complete range of technically superior, high quality abrasives, innovatively designed tools, complete sanding systems and supplementary products. This total innovative solution delivers real benefits to customers in terms of speed, first-class efficiency, surface finish quality and cost

effectiveness, even when tackling the most demanding applications.

Mirka is the first company in its sector to obtain the three most important quality standards. The production process guarantees reliable quality by following the ISO 9001 quality assurance system. The ISO 45001 occupational health and safety management system ensures a high level of work safety. The ISO 14001

environmental management system proves that we consider the environment in all our activities.

Corporate Responsibility

CONTINUOUS IMPROVEMENT TOWARDS SUSTAINABILITY.

Changing conditions inspire us to improve and grow our business. We see that our customers are as interested in sustainability as we are. This is why our product development is focused on innovating the best sustainable products and systems, while continually improving our own environmental performance.

Our business is focused on providing the best surface finishing preparation tools and systems to customers. To be the most sustainable finishing systems provider, we are digging deep down to the core of our company to figure out what it really means to be sustainable. We have accomplished a great deal already and have many more

initiatives we will take on in the future.

For people working at Mirka, it has always been clear to not waste financial or material resources – of our own or those of our customers. We find it is equally clear to preserve the planet's resources. Sustainability is a natural extension of this approach. It means taking the economy, the earth, and people into consideration when we make business decisions – now and for future generations.

We are continuously looking for opportunities to reduce our environmental footprint – this aligns with our company values and also cuts costs. We have worked hard to conserve energy and raw materials, reduce waste, increase recycling, and decrease the use of persistent chemicals. We are developing healthier, safer, and

more efficient products and processes so that our customers and employees will benefit. For example, our dust-free sanding systems help protect the lungs of workers while giving a cleaner and better surface finish.

Partner Portal

The Mirka Partner Portal gives you access to information on your orders, invoices and sales as well as the latest product information and news. Our secure site also gives you access to our new Webshop on-line ordering system. For further details or to register, please contact Mirka (UK) Ltd. Please note this is only available to Mirka Distributors.

MIRKA

Mirka® LEROS

180° flexibility. 100% comfort.

Brushless motor technology - Enables compact design and eliminates the need to change carbon brushes. Helps to maintain a constant speed under load.

180° flexibility in the sanding head - Improves the ergonomics.

5mm random orbit movement - Creates a great surface finish and is much easier to operate compared to rotary sanders.

Dual suction points - Improves the dust extraction.

Only 3.5 kg - The lightest orbital wall sander on the market is easier to use and improves ergonomics.

Mirka® LEROS - Pure innovation.

Mirka (UK) Ltd Dust Extractor Disclaimer

It is the responsibility of the purchasing customer to ensure that any dust extractor is suitable for the type of dust being collected. Mirka (UK) Ltd does not and will not recommend a dust extractor to customers. All brochures, catalogues, descriptions and other promotional materials are to be treated as illustrative only and are not intended to amount to advice or recommendation on which a customer should rely. Mirka (UK) Ltd recommends a full risk assessment is carried out by an independent third party professional or specialist to ensure any dust extractor is fit for the purpose intended by a customer before they make a purchase. If the dual vacuum kit is used on an M class dust extractor, the dust extractor cannot be used in applications where M class is required. In no event will Mirka (UK) Ltd be liable for any loss or damage as a result of a customer using a Mirka dust extractor. This disclaimer supplements Mirka (UK) Ltd's Terms of Sale.

Mirka (UK) Ltd Dust Extractor Disclaimer

It is the responsibility of the purchasing customer to ensure that any dust extractor is suitable for the type of dust being collected. Mirka (UK) Ltd does not and will not recommend a dust extractor to customers. All brochures, catalogues, descriptions and other promotional materials are to be treated as illustrative only and are not intended to amount to advice or recommendation on which a customer should rely. Mirka (UK) Ltd recommends a full risk assessment is carried out by an independent third party professional or specialist to ensure any dust extractor is fit for the purpose intended by a customer before they make a purchase. If the dual vacuum kit is used on an M class dust extractor, the dust extractor cannot be used in applications where M class is required. In no event will Mirka (UK) Ltd be liable for any loss or damage as a result of a customer using a Mirka dust extractor. This disclaimer supplements Mirka (UK) Ltd's Terms of Sale.

MIRKA

TOOLS

Mirka® AROS-B

Mirka cordless sanders.

As with all Mirka machines, the ergonomic design has been a priority to ensure that the light tool can comfortably be used for long periods without fatigue. These cordless sanders enable a long working time as the battery lasts up to 16 hours in industrial use. The lithium-ion battery charges in only 45 minutes.

Mirka® AROS-B – Battery driven.

MIRKA

NEW

Mirka[®] DEXOS

The All New Dust Extractor

Mirka[®] DEXOS is a completely new dust extractor with a compact, ergonomic, and user-friendly design. Designed from the ground up to be part of Mirka's next generation of power tools, the DEXOS[®] is an M class extractor with numerous clever touches to make sanding easier and efficient for the operator.

Also available to purchase is a Bluetooth-enabled remote control which senses tool vibrations to start the extractor.

Mirka[®] Dust Extractors - don't let the dust haunt you.

Mirka (UK) Ltd Dust Extractor Disclaimer

It is the responsibility of the purchasing customer to ensure that any dust extractor is suitable for the type of dust being collected. Mirka (UK) Ltd does not and will not recommend a dust extractor to customers. All brochures, catalogues, descriptions and other promotional materials are to be treated as illustrative only and are not intended to amount to advice or recommendation on which a customer should rely. Mirka (UK) Ltd recommends a full risk assessment is carried out by an independent third party professional or specialist to ensure any dust extractor is fit for the purpose intended by a customer before they make a purchase. If the dual vacuum kit is used on an M class dust extractor, the dust extractor cannot be used in applications where M class is required. In no event will Mirka (UK) Ltd be liable for any loss or damage as a result of a customer using a Mirka dust extractor. This disclaimer supplements Mirka (UK) Ltd's Terms of Sale.

ABRANET® GRIP DISCS

Abranet®

Abranet® is a revolutionary sanding material for dust-free sanding.

This unique patented sanding material contains thousands of small holes, making it possible to effectively vacuum dust and other particles away without clogging the disc surface. The result is seen as a very uniform sanding pattern and a perfectly smooth surface. Since the amount of airborne dust has been minimised, the work environment is remarkably improved.

Abranet has been developed for sanding filler, primers, lacquers, composite materials and a large amount of other materials.

- Durable long lasting product
- Economical sanding solution

ABRANET® ACE GRIP DISCS

Abranet® Ace

Abranet® Ace is a premium net product with a ceramic grain. The product increases production and speed for tougher, more demanding sanding applications in a variety of industrial sectors, whilst reducing costs.

The improved robust grain prolongs the life and ensures fewer sanding defects and less grain breakage. The tougher nylon backing and heavier velour provides better disc grip adhesion and enhanced edge wear, making Abranet® Ace more effective and longer lasting.

Abranet® Ace also has a highly visible reverse side print pattern making it more user-friendly.

ABRANET® ACE HD GRIP DISCS

Abranet® Ace HD

The latest addition to the net abrasive family, Abranet® Ace HD, is durable and tough with ceramic grains. The strong net structure resists high wear and tear and the ceramic grain offers superior cutting performance on various surfaces. The improved woven mesh backing increases the lifetime of the abrasive, and makes the sanding process faster.

- Resists clogging and delivers long lasting performance
- Excellent durability - retains its high performance sanding properties for far longer, especially on harder applications
- Outstanding performance on demanding applications

ABRANET® YELLOW

Abranet® Yellow

Abranet® Yellow makes every painter's day healthier, faster, and cleaner by enabling truly dust-free sanding. This net-based abrasive is designed for hand and machine sanding of ceilings and walls. It comes in two formats and three grit options, covering everything from heavy material removal to fine surface finishing.

The key to Abranet® Yellow's excellent wall and ceiling sanding properties is the well-balanced combination of softness and the fast-cutting net structure. The abrasive is soft and flexible enough to provide even, controlled sanding with an electric sander or hand sanding, while the net design ensures efficient material removal and excellent dust extraction.

Three simple grits

Fine is ideal for soft filler and final surface preparation.

Medium is the all-round option, suitable for most surfaces and tasks a painter may encounter.

Coarse is designed for rough substrates, such as plaster patches and textured surfaces.

Technical specifications

| | |

IRIDIUM GRIP DISCS

Iridium

Iridium is a premium paper abrasive for universal sanding. Perfected for speed and efficiency, it has a mix of ceramic and aluminium oxide grains on a flexible paper with precision coating that prevents clogging and reduces pilling. It practically repels dust and lifetime is increased as the grains stay sharp for longer. Dust extraction is optimised with multihole patterns for discs and strips. Iridium delivers amazing results on both soft and hard surfaces, making it the ideal paper abrasive choice for professionals in any industry.

WALL SANDING DISCS

Gold

Gold is a durable product very well suited for sanding at high speeds.

Gold is an all-round sanding material that can be used for many purposes. In order to achieve an optimal sanding result, the semi-open grit binding and special stearate coating are designed to prevent clogging and pill forming.

Gold • 225 mm • 27 Holes • Grip

Yellow Abrasive Soft

Mirka Abrasive Yellow Soft is a foam backed abrasive developed for the sanding of plaster. The foam base helps to evenly distribute pressure, which helps to create a smoother finish, while the semi-open coating prevents clogging. The smooth feel reduces the risk of damaging the surface even when sanding aggressively.

ABRANET® GRIP STRIPS

Abranet®

Abranet® is a revolutionary sanding material for dust-free sanding.

This unique patented sanding material contains thousands of small holes, making it possible to effectively vacuum dust and other particles away without clogging the disc surface. The result is seen as a very uniform sanding pattern and a perfectly smooth surface. Since the amount of airborne dust has been minimised, the work environment is remarkably improved.

ABRANET® YELLOW GRIP STRIPS

Abranet® Yellow

Abranet® Yellow is a soft, net-based abrasive that ensures a cleaner, more efficient sanding experience. Abranet Yellow delivers excellent dust extraction and fast, controlled material removal. Its unique combination of flexibility and cutting ability makes it ideal for sanding walls and ceilings.

Available in three grit options – coarse for rough surfaces, medium for general use, and fine for smooth finishing – Abranet Yellow suits a wide range of tasks.

Abranet® Yellow • 80 x 230 mm • Grip

| Product Code | Grit | ROQ (Packs) | Pcs/Pack |

GALAXY GRIP STRIPS

Galaxy

Mirka's new innovative Galaxy abrasive combines effectiveness with long life, thanks to a new self-sharpening ceramic grain, a clog resistant coating and the new Multifit hole configuration. The ceramic grains of Galaxy are engineered to stay sharp, as new abrasive edges are formed when they break down during the sanding process, enabling Galaxy to continue cutting – from edge to edge. The blue ceramic grains retain sharpness exceptionally well, giving Galaxy a long life and a fast cut.

Galaxy • 81 x 133 mm • Multifit • Grip

IRIDIUM GRIP STRIPS

Iridium

Iridium is a premium paper abrasive for universal sanding. Perfected for speed and efficiency, it has a mix of ceramic and aluminium oxide grains on a flexible paper with precision coating that prevents clogging and reduces pilling. It practically repels dust and lifetime is increased as the grains stay sharp for longer. Dust extraction is optimised with multihole patterns for discs and strips. Iridium delivers amazing results on both soft and hard surfaces, making it the ideal paper abrasive choice for professionals in any industry.

NEXT GENERATION ABRASIVES

Our next generation abrasives, such as Iridium and Galaxy, are made with the most effective and advanced technology, uniquely used by Mirka. The innovations in the production process use significantly less energy, reduced amounts of hazardous chemicals as well as less production waste.

ABRANET® GRIP TRIANGLES

Abranet®

Abranet® is a revolutionary sanding material for dust-free sanding.

This unique patented sanding material contains thousands of small holes, making it possible to effectively vacuum dust and other particles away without clogging the disc surface. The result is seen as a very uniform sanding pattern and a perfectly smooth surface. Since the amount of airborne dust has been minimised, the work environment is remarkably improved.

ABRANET® ACE HD GRIP TRIANGLES

Abranet® Ace HD

The latest addition to the net abrasive family, Abranet® Ace HD, is durable and tough with ceramic grains. The strong net structure resists high wear and tear and the ceramic grain offers superior cutting performance on various surfaces. The improved woven mesh backing increases the lifetime of the abrasive, and makes the sanding process faster.

PAPER ROLLS

Caratflex

Caratflex is a stearate coated abrasive product for dry sanding applications. Caratflex has been developed for hand sanding of wood, sealers, paint and lacquers. The backing consists of a flexible latex paper, which is ideal for profile sanding.

Caratflex has a fine stock removal and the silicon carbide grains provide a uniform scratch pattern. The resin bonding and the stearate coating guarantee a long lifetime.

Gold Proflex

Gold Proflex is a stearate coated abrasive paper for dry hand sanding of wood, fillers, paints and lacquers. The backing is latex paper, which provides a desired flexibility and conformity in profile sanding operations as well as on flat surfaces. Due to the anti-slip coating on the reverse, it provides good grip during sanding. Gold Proflex has aluminium oxide grain, which provides a good cut and an excellent scratch pattern, making it ideal for in-between coats and finishing.

PAPER ROLLS

Hiomant

Hiomant is a sanding material suitable for sanding by hand and light machine sanding. The Hiomant durable backing material makes the product long-lasting with super edge wear resistance. The coarser grits are suitable for sanding down filler seams and sanding wood by hand. The finer grits are mostly used for sanding fine wooden surfaces.

Mirka (UK) Ltd Dust Extractor Disclaimer

It is the responsibility of the purchasing customer to ensure that any dust extractor is suitable for the type of dust being collected. Mirka (UK) Ltd does not and will not recommend a dust extractor to customers. All brochures, catalogues, descriptions and other promotional materials are to be treated as illustrative only and are not intended to amount to advice or recommendation on which a customer should rely. Mirka (UK) Ltd recommends a full risk assessment is carried out by an independent third party professional or specialist to ensure any dust extractor is fit for the purpose intended by a customer before they make a purchase. If the dual vacuum kit is used on an M class dust extractor, the dust extractor cannot be used in applications where M class is required. In no event will Mirka (UK) Ltd be liable for any loss or damage as a result of a customer using a Mirka dust extractor. This disclaimer supplements Mirka (UK) Ltd's Terms of Sale.

TERMS AND CONDITIONS

Prices and descriptions are correct at the time of publication, however these may be reviewed at any time and are subject to change without notice. Mirka reserves the right to change the status of products from/to standard stock without notice. All prices are exclusive of VAT and are subject to changes external to Mirka's control. E&OE. Due to the printing processes used the colours shown may vary from the actual item. Minimum order is £350 + VAT. Delivery via distribution only. Standard Terms of Sale apply unless otherwise stated.

This document is the property of Mirka and may not be reproduced in whole or in part without its consent. Prices and descriptions are given for the sole purpose of giving an approximate idea of Mirka's range of products and are provided "as is" for this purpose. Neither prices and descriptions nor this document shall constitute an offer to supply products. Particular products and/or sales channels may, at Mirka's election, be reserved to Mirka for the purposes of sale to particular customers. In addition or alternatively, particular products may be subject to resale terms set forth by Mirka from time to time including, without limitation, where products are contained within a kit, that the individual products within that kit cannot be resold separately.

Items in blue are only available from stock in Finland and are subject to a lead time of 5 – 7 days.

Terms of Sale

Mirka (UK) Ltd's terms of sale (together with its online reseller policy, dust extractor disclaimer and any other policies from time to time, which appear or will appear on its website and which supplement its terms of sale) apply to all sales of goods by Mirka (UK) Ltd. These documents can be viewed at www.mirka.co.uk under the "Company - Policies & Certificates" section and they form part of the contract for the sale of any goods by Mirka (UK) Ltd. An acceptance of a Mirka (UK) Ltd quotation or an order to Mirka (UK) Ltd is an offer to purchase goods on Mirka (UK) Ltd's terms of sale. No contract for the sale of any goods will come into existence until Mirka (UK) Ltd has issued a written acknowledgment or confirmation of order. Such terms of sale provide, without limitation, for the following and your particular attention is drawn to the following:

1. Unless otherwise agreed in writing, all prices given are on an ex works basis from Mirka (UK) Ltd's premises. Where goods are supplied for export from the United Kingdom, unless otherwise agreed in writing, goods shall be delivered fob the air or sea port of shipment.
2. By way of a minimum purchase amount, the buyer shall purchase goods from Mirka (UK) Ltd of not less than any quantity set by Mirka (UK) Ltd.
3. Time for payment shall be of the essence.
4. Any dates quoted for delivery of goods are approximate only and Mirka (UK) Ltd shall not be liable for any delay in delivery howsoever caused. Time of delivery shall not be of the essence.
5. Risk of damage to or loss of goods shall pass to the buyer on delivery.
6. Property in goods shall not pass to the buyer until Mirka (UK) Ltd has received cleared payment in full for the price of those goods and all other goods agreed to be sold for which payment is due.
7. Except in respect of any matter in respect of which it would be unlawful for it to exclude or limit its liability, the entire liability of Mirka (UK) Ltd under or in connection with any contract for the sale of goods shall not exceed the price of goods supplied.
8. The terms of each contract for the sale of goods shall be governed by the laws of England and the buyer agrees to submit to the exclusive jurisdiction of the English courts.
